The economy of Bangladesh has been growing tremendously over the last decade. With the robust development all around the country in every sector, our economy craves for massive long-term financing. Bangladesh Securities and Exchange Commission (BSEC) is working hard for continuous development of our capital market in order to make it the main source of long-term financing. The Financial Institutions Division, International Trade, Investment & Technology Wing and concerned regional Wing of the Ministry of Foreign Affairs and Bangladesh Missions in the concerned countries extended their full cooperation to hold the summits successfully.
